Vinnie's

Vinnie's is a good place to visit on the weekends. That's when they have their half price sale. This means that most of their items are on sale for half price. For example, you can buy a set of dining room chairs at half price for two-hundred dollars. You can buy a new couch at half price for \$389. Why, just last week I saw a bookshelf on sale for half price at forty dollars. That's a pretty good deal, considering you have to pay at least ninety dollars to buy that somewhere else. But while Vinnie's is a good place to visit on the weekends, you should definitely stay away from there during the weekdays. Items at Vinnie's are priced way too high when they are not on sale.
